

Homework Assignment 5F1

Page 1 of 2

(To be used following Lesson 18)

Name: _____ **Date:** _____

1. Survey six friends or family members to find out how many days per week they exercise.

2. Make a table representing the data collected.

3. Design a bar graph to show the results of your survey. Be sure to include a title, equal intervals and labels.

4. Why was the bar graph an appropriate way to display this data?

5. What did you learn by conducting this survey?
