

Homework Assignment 5A2

(To be used following Lesson 5)

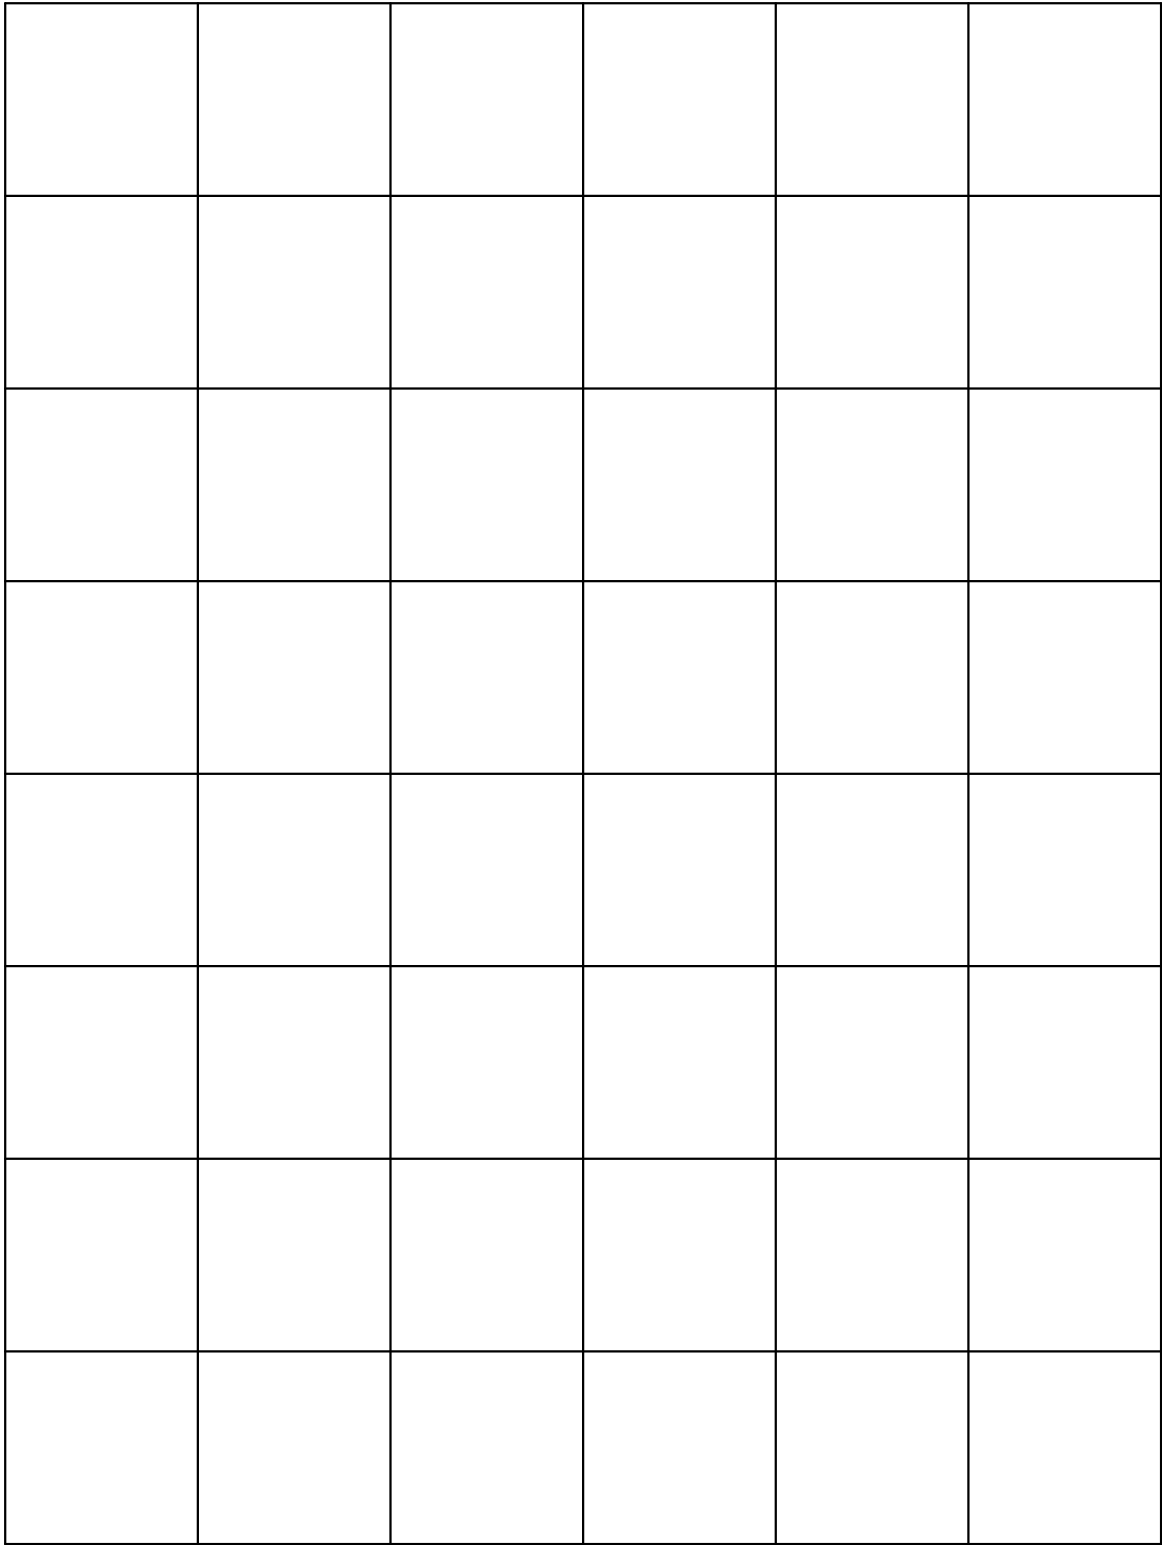

***Each student will need two sheets of one inch grid paper.**

Name: _____ **Date:** _____

Draw and cut out as many nets as you can that will fold into a cube.

Describe the nets that did not work. Why did some nets fold into a cube while other did not fold into a cube?

Sketch the nets that make a cube.

Lessons 1-5 Subconcept: Three-dimensional shapes can be analyzed and described.
