

Homework Assignment 3D1

(To be used following Lesson 18)

Name: _____ Date: _____

1. What unit in the metric system (liter or milliliter) is best for measuring the capacity (liquid volume) of a fish tank? Explain your choice.

2. What unit in the U.S. Customary System (ounce, gallon, or quart) is best for measuring the capacity (liquid volume) of a baby bottle? Explain your choice.

3. Circle the unit for each system that is best to measure the weight/mass of your dog. Explain your choice.

| <u>U.S. Customary System</u> | <u>Metric System</u> |
|------------------------------|----------------------|
| ounce | gram |
| pound | kilogram |
